Folio Expert Cover Stand for iPad® 4th gen & 3rd gen - Red

K39636WW

Product Description

Whether you have iPad® 4th gen or 3rd gen, we have a single folio that can protect it. The Kensington Folio Expert features a unique Microsuction technology that allows it to accommodate the new iPad and iPad 2 while preserving access to all ports, controls and connectors.

The remarkable Microsuction technology is literally millions of miniature suction cups that securely hold your iPad without adhesives. No adhesives means no sticky residue. And it means that your iPad can be removed and reattached countless times. Another advantage of Microsuction technology is that it's not form-factor dependent. So any device with a smooth back, including future tablets and your smartphone can be used in the folio.

Once inside the folio, your iPad is wrapped in a layer of microfiber that protects it from scratches, bumps and wear. And the magnetic closure keeps the folio cover secure when on the go or for in case use. When you reach your destination, the folio easily converts to landscape or portrait viewing and adjusts to a variety of angles for greater comfort whether you have the iPad on a desk or on your lap.

Features

- Adjusts from low-angle position to working on your lap
- Micro-suction technology allows universal compatibility with the new iPad and iPad 2
- Supports either landscape or portrait viewing
- Compact and light folio folds flat for in case use
- Magnetic closure with automatic wake/sleep mode
- Microfiber interior protects tablet from wear and scratches
- Easy port access to all controls and connector
- iPad not included
